EDUCATION

**Master of Science in
Information Technology
(MSIT)**

University of Lahore, Pakistan
| 2010 – 2013

CORE

COMPETENCIES

- Full Stack Web Development
- Microservices Architecture
- Scalable Web Applications
- API Design & Integration
- Serverless Computing (AWS Lambda)
- CI/CD Pipelines & Deployment
- Performance Optimization
- Cross-functional Team Collaboration
- Agile/Scrum Methodologies
- UI/UX Responsive Design

LANGUAGES

English - Fluent

Urdu - Fluent

PROFILE

Innovative and solutions-focused Full Stack JavaScript Developer with over 3 years of hands-on experience in architecting, developing, and deploying robust full-stack web applications. Proficient in modern web technologies including JavaScript, TypeScript, React.js, Next.js, and Node.js with a strong command of both frontend and backend development. Demonstrates proven success in building scalable, high-performance applications, integrating APIs, and leading cross-functional teams in fast-paced environments. Adept at translating complex requirements into technical solutions that drive business value, optimize performance, and improve user experience.

EXPERIENCE

BERT Solutions, UAE
Aug 2024 – Present

Full Stack JavaScript Developer

Led the development of enterprise-level web applications using React.js, Next.js, and Node.js. Designed and deployed RESTful APIs and GraphQL services, improving system efficiency by 30%. Integrated WebSocket and Socket.IO for real-time data streaming and event-driven features. Optimized backend performance by implementing efficient indexing and caching strategies. Conducted code reviews and implemented development best practices to maintain code quality. Collaborated with UI/UX designers and product managers to refine user experience.

Smart Adroit, UAE
June 2023 – Aug 2024

Full Stack JavaScript Developer

Developed dynamic frontend interfaces with React.js and Redux, improving UX by 25%. Created scalable backend services and APIs using Node.js and Express. Integrated third-party APIs including Stripe for seamless and secure payment processing. Migrated legacy code to modern serverless infrastructure using AWS Lambda, enhancing system responsiveness. Executed unit and integration testing, reducing production bugs by 60%. Participated in Agile sprint planning, daily stand-ups, and code deployments.

Techling, UAE
Sep 2022 – June 2023

Frontend Developer Intern

Supported frontend development using HTML, CSS, React.js, and Next.js. Translated UI/UX designs into interactive user interfaces. Built and maintained reusable components and libraries for future use. Assisted in integrating third-party services such as Stripe for payment functionalities. Gained practical experience in backend development using Node.js microservices. Collaborated closely with senior developers for debugging and code optimization.

TECHNICAL SKILLS

- **Programming Languages:**
JavaScript, TypeScript, Node.js
 - **Frontend Technologies:**
React.js, Next.js, Redux, Tailwind CSS, Material UI
 - **Backend Technologies:**
Node.js, Express.js, Python Flux
 - **Databases:** MySQL, PostgreSQL, Drizzle ORM
 - **Cloud & DevOps:** AWS
 - **Tools & Collaboration:** Git, JIRA, Trello, Slack
 - **API Integration:** RESTful APIs, GraphQL
 - **Version Control:** Git & GitHub
-

NOTABLE PROJECTS

● Recess

- AI-powered online marketplace using React.js, TypeScript & Material UI. Employed React Query for dynamic state management.

● Chak92

- Real estate platform with frontend built in Next.js & PostgreSQL backend. Integrated data visualization & responsive design.

● Construction Management Platform

- Used Next.js, TypeScript, and Drizzle for dashboard development with RBAC via NextAuth.

● Hadya App

- React Native donation app with GraphQL, PostgreSQL, and secure authentication via NextAuth.

● CazVid

- A video-centric employment platform with React.js, enabling real-time video features and SEO enhancements.

● Instant Fulfillment

- E-commerce site using Next.js, MongoDB, and secure server-based API actions.

● Cloud Equate

- Cost estimation platform for AWS, Azure, GCP. Features include CSV/PDF export, role-based access, and disaster recovery tools.

● Recrution:

- Its an AI-based hiring portal built using Python and modern frameworks such as Next.js, with intelligent chatbot integration for seamless recruitment
